### **DETAILED ACTION**

This action is responsive to Applicant's amendments of 7/14/2007, which have been entered into the electronic file of record.

#### ***Claim Rejections Withdrawn***

All rejections of the claims under 35 USC 112 are withdrawn in view of the Applicant's amendments.

#### ***Allowable Subject Matter***

Claims 1-43 allowed.

The following is an examiner's statement of reasons for allowance: The Examiner has already noted that the software structure and methods conveyed in the specification have not been shown or suggested in the prior art, but noted that the language of the original claims, without clarifying the function, role or action of the 'Open Device Services' layer left the claims open to substantially broader interpretation.

The applicant has now amended the claims to describe this layer in more detail, and new claims also describe the architecture in sufficient detail so as to distinguish the invention from the prior art; as a result the claims are now allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue

fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
